The Aesthetic Realism Theatre Company Presents

THE GREAT FIGHT OF *EGO* vs. *TRUTH*

 YOU'LL HEAR THROUGH SONGS—including some of the most popular and beautiful songs—what the biggest fight is within every person and America herself. Eli Siegel, founder of Aesthetic Realism, explained it. It's the fight between *contempt* for the world and *respect* for it. It's the fight of *Ego*—lying about the world to suit yourself—versus *Truth*.

Aesthetic Realism shows: The urgency of understanding this fight is equaled only by the enormous pleasure (including the artistic delight) of doing so. Whatever the subject, every good song tells the truth about reality and us! The reason is in this Aesthetic Realism principle:

“The world, art, and self explain each other: each is the aesthetic oneness of opposites.”
